1. What is PEPO Token?

Pepe has transcended! He has cast off his mortal shackles, become one with the universe, and taken his place among the stars. His life force has merged with the essence of the cryptosphere, he has become one with the markets. The ebbs and flows of the tides of meme are his realm, now and through the infinite tendrils of possible futures. He is omni-potent, omni-present, all-knowing.

2. PEPO's Mission & Vision

There's no need to state the obvious: the world of finance is filled with dreamers and hopefuls who keep failing, losing time and money in their quest to strike it rich. Then there are the elite few at the top, flaunting their wealth while small-time investors and hardworking traders struggle to climb the ladder. PEPO is built for those who've fought through setbacks and stayed the course—and the rewards are for those who are ready to seize them, the ones who've been through it all.

PEPE Orion's philosophy is about valuing holders' contributions and using those contributions to help them earn. E2E baby! PEPO's bold mission and vision are clear: everyone deserves a fair shot at hitting it big. Insider tips, engagement, and impact on the projects shouldn't be reserved for the already wealthy. Everyone is welcome to join a community-driven collective focused on building the next generation of success stories. This isn't just a meme project—it's a movement that thrives on its communal efforts.

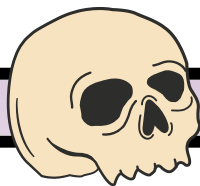

3. What Makes PEPO Stand Out?

If you're digging this deep into the PEPO project, chances are you're a seasoned player in the chaotic realm of crypto—a space dominated by market giants and the unpredictable ups and downs. By now, you've likely had your share of losses, fair or not, and endured the pain of sudden dumps. All the while, beginners and lucky outliers have been turning small stakes into fortunes right before your eyes. You're probably asking yourself: "Am I really on the right path?"

History tells us that every massive win, every rags-to-riches story, was either the result of some stroke of luck or some unknown forces beyond the power of the holder. And by the time everyone else joined the party, the opportunity had already passed.

PEPO aims to level the playing field by connecting crypto diehards, industry insiders, and determined underdogs who believe it's finally their time to leave a lasting impression in the crypto universe. The project gives them the chance to engage with it and expand its possibilities and utilities.

Key Advantage

The New Engage to Earn E2E Concept

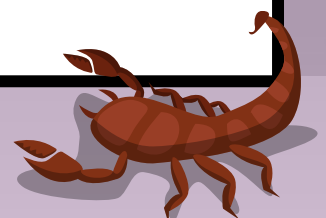

E2E will create a platform for holders to earn through their engagement with the token.

Exclusive Membership in an Exclusive Community

If you purchase enough \$PEPO, you will receive a one-time password and link to the club that will change the way you trade forever.

Exclusive Features for Buyers in Each Stage

What makes PEPO stand out is how its community will benefit from the moment they join as holders.

4. PEPO Utility

The \$PEPO token is designed as something between a game and an AI agent.

It invites AI and crypto enthusiasts to engage with it and earn!

Engage to Earn E2E: Updates on how these engagements will result in earnings will be revealed at each stage of the presale.

Exclusive Community: The keys to this kingdom are given only to those who buy enough \$PEPO. But once they enter, they'll be welcomed into a world of insiders and whales that will take the community to the moon.

Referral Links: Each holder will receive a referral link upon buying their tokens, through which they can build an ever-growing network of earners.

Staking Rewards: Those who hold onto their PEPO will earn rewards without even realizing it by staking \$PEPO tokens, but also by being a true team player and remaining an active member of the PEPO community.

5. Staking \$PEPO

The staking in \$PEPO is a guarantee for \$PEPO holders to avoid dumps and losses by rewarding loyalty and long-term investments. The moment you get your hands on your \$PEPO, you're automatically set to receive rewards at each step of the presale.

Unique Features

Reward Pool: As detailed in this whitepaper, the PEPO-nomics of this project allocates 15% of the supply of \$PEPO tokens for staking rewards. This ensures long-term income for the PEPO community members and creates a sense of responsibility for the PEPO-nomics behind the project. Following these guidelines will lead to community growth and collective benefit.

AI and Game: During pre-sale, PEPO will come to life, inviting holders to interact with the project while making earnings and enjoying themselves. The Engage to Earn E2E model will change the game forever.
